

Global Stage

Educating
the Leaders
of Tomorrow

Welcome to Global Stage

Global Stage is a 6-level language and literacy course that supports children in becoming competent and confident English speakers while also developing them as self-directed, inquisitive learners and responsible global citizens.

1

Global Citizenship and SEL

Supports teachers in their efforts to equip young learners with the knowledge and skills which will enable them to become caring and responsible citizens of the world.

2

Language and Literacy Practice

Brings together a rigorously benchmarked language programme with a diverse and engaging literacy programme through a unique, dual student book approach. The **NEW Language Workbook** provides additional opportunities for heads-down grammar and vocabulary practice.

3

Confident Speakers and Writers

Nurtures children to become competent and confident speakers and writers of English so they can engage with subject areas across the curriculum.

4

Thinking Skills

Builds on children's natural inquisitiveness by providing structured opportunities to develop their Thinking Skills and understanding of the world.

5

Digital Learning

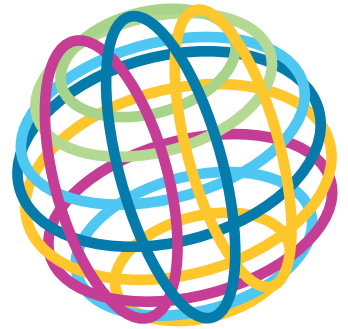

Comes alive in the easy-to-use digital environment, **Navio**, helping teachers and students use the course in any teaching scenario: in a face-to-face class, at home in a fully-digital environment or in both as a positive blended learning experience.

Global Citizenship and SEL

Global Stage starts with the child and looks out towards the world.

Global Citizenship lessons and self-reflection exercises make learning go beyond the classroom while creative thinking tasks help students develop a deeper understanding of the world around them.

Global Citizenship

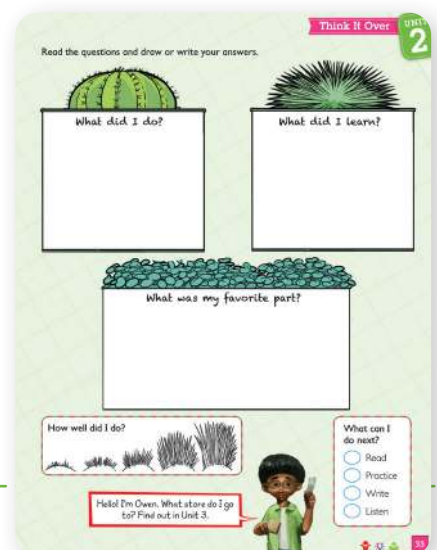

- Every unit has a *Global Citizenship* lesson complete with thought-provoking questions and listening activities aimed to prepare students to fulfil aspirations such as travelling or studying abroad.
- Questions at the end of the *Global Citizenship* lessons encourage students to think about their own experiences while giving them the opportunity to learn about what life is like in other countries.

Do you have the same team projects in your community?
How can you be a good team member?

Social and Emotional Learning (SEL)

- Students are guided to make connections between the SEL concept and the people and events in the texts, as well as their own lives.
- *Think Together* lessons in the Literacy Book encourage learners to practise collaborating in a structured way.
- *Think it Over* lessons in the Language Book help students self-reflect and support them in becoming considerate, thoughtful citizens of the world.

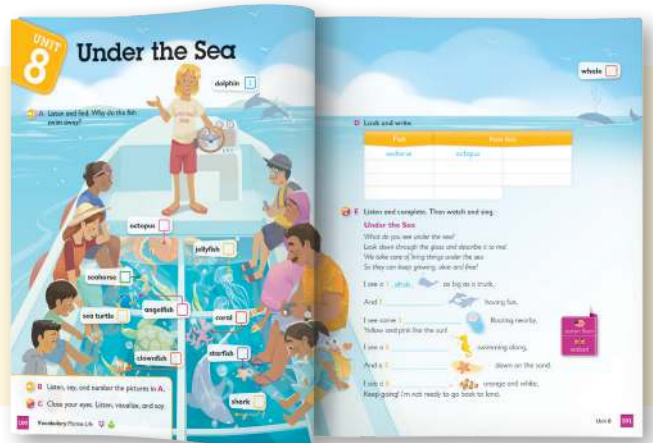

Language and Literacy Practice

The unique, dual student book approach brings together a rigorously benchmarked language syllabus with a diverse and engaging literacy programme. The **Language Book** and **Literacy Book** provide a complete English learning experience. Designed to be used together, they cover the four skills and provide a solid foundation in vocabulary and grammar while supporting the development of Self-Direction, Thinking Skills, Social and Emotional Skills and Global Citizenship.

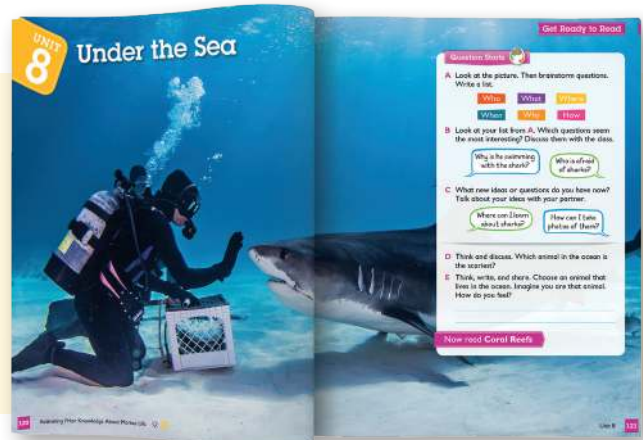

The **Language Book** teaches the building blocks of language: vocabulary, grammar and skills.

Language Book 3, Unit 8

The **Literacy Book** focuses on literary concepts and the development of reading skills through a variety of fiction and non-fiction texts.

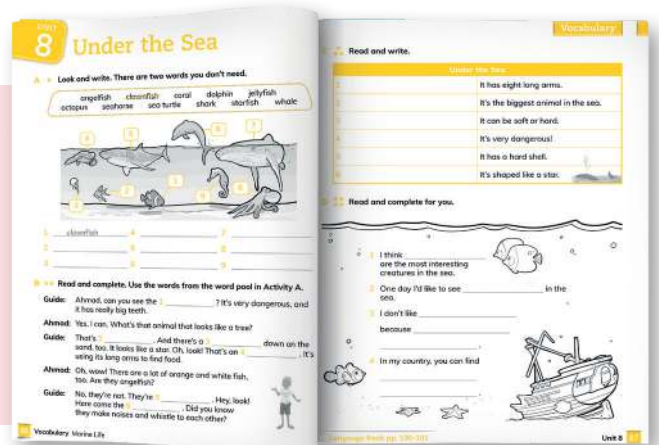

Literacy Book 3, Unit 8

The **NEW Language Workbook** provides additional opportunities for in-depth grammar and vocabulary practice so that students master the language every step of the way.

The **Language Workbook** offers further consolidation and practice, with activities graded at different levels of difficulty, to ensure that students progress at their own pace.

NEW

Language Workbook 3, Unit 8

Confident Speakers and Writers

With dedicated writing and speaking lessons **Global Stage** nurtures children to become competent speakers and writers of English so they can confidently engage with subject areas across the curriculum.

Speaking

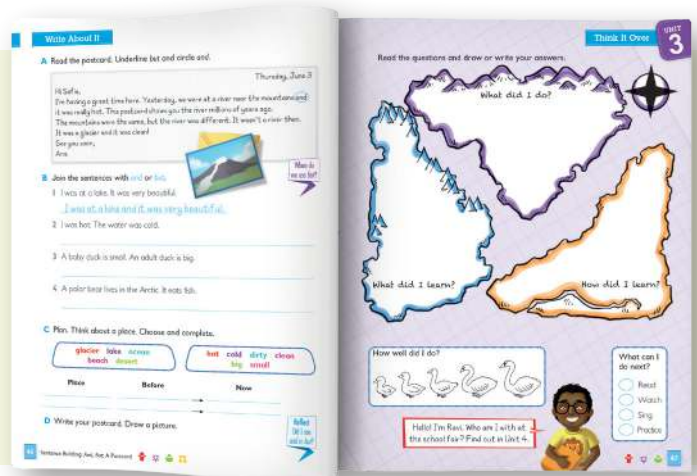

Model speaking videos and scaffolded speaking structures in the *Talk About It* lessons help children learn to plan and deliver presentations and engage in conversation with confidence.

Language Book 2, Unit 3

Writing

Write About It lessons explore writing mechanisms such as spelling and punctuation. Differentiated writing worksheets allow teachers to tailor writing tasks to mixed ability classes.

Language Book 2, Unit 3

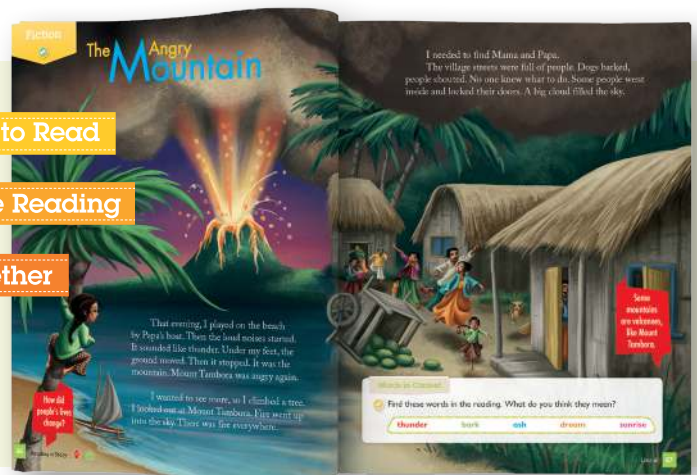

Reading

The *Three Stage Reading* approach builds a solid foundation that students need to communicate and study across different subject areas.

Think Together

Literacy Book 2, Unit 4

Developing Thinking Skills

Children are naturally curious and want to learn about the world around them. They are eager to make connections about what they know.

Visible Thinking is a flexible research-based framework developed out of Harvard University for enriching classroom learning and fostering students' intellectual development.

UNIT 2 This Is Delicious

Get Ready to Read

See, Think, Wonder

A Look at the picture. What do you see?

The color yellow. I see a street.

B What do you think?

I think it's a party. It's a mom and a daughter.

C What do you wonder?

Are they happy? How old is the girl?

D Think, draw, and share. What food do you make at home?

E Look and answer.

1 How many people do you see?
2 Where are they?

Now read *The Right Place*

24 Activating Prior Knowledge About Food

Unit 2 25

Literacy Book 1, Unit 2

The *Visible Thinking Routine (VTR)* See, Think, Wonder stimulates children's curiosity and encourages them to make predictions. It ties in with a pre-reading activity preparing students cognitively for what they are about to read.

See

A

Students are encouraged to look at the picture and think critically about what is being depicted.

Think

B

Questions help guide students with their thought processes and make meaning of the content.

Wonder

C

Talking things over with a partner and sharing their interpretations with the class creates a collaborative classroom environment.

Digital Learning

Global Stage provides you with excellent digital resources to help you prepare, deliver and monitor your classes.

Teacher's App on

NAVIO

- Tap & Teach lessons containing tools for delivering stimulating lessons with the class audio, video and interactive activities, all in one place.
- Provides seamless transition between print materials and digital components so you can focus on helping students to learn.
- Easy to monitor students' progress through the Progress Tracker.

Student's App on

NAVIO

- Transforms learning into an immersive, self-directed, gamified experience.
- Children get immediate feedback through automatically graded interactive exercises.
- Expands on the topics and objectives in the **Language** and **Literacy Books**.

If you teach remotely or would like to use more digital tools in your classroom, we have enhanced and reconfigured **Global Stage** by creating a Digital Literacy Book and a Digital Language Book.

DIGITAL BOOKS

- Digital Books contain embedded audio and video, as well as interactive, self-marking activities with immediate feedback so students know how they are doing straight away.
- Teachers can assign homework and set reminder notifications for students, as well as monitor their learning via the *Progress Tracker*, saving valuable time.

Educating the Leaders of Tomorrow

FOR STUDENTS

Blended solution

Language Book and Literacy Book with access to:

- Digital Language Book
- Digital Literacy Book
- Navio App

NEW Language Workbook

For additional heads-down practice of grammar and vocabulary.

Fully digital solution

- Digital Language Book
- Digital Literacy Book
- Student's App on Navio

FOR TEACHERS

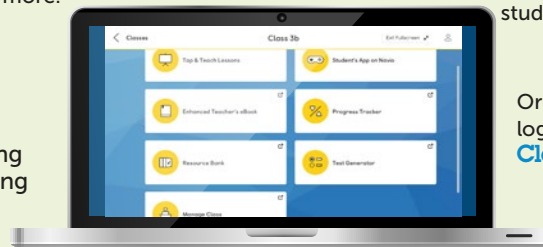

Teacher's Book with access code to the Teacher's App on Navio

Instant **Tap & Teach Lessons** with audio, video and interactive activities, flashcard games and more.

Enhanced Teacher's eBook helps save time with on-screen lesson planning using the detailed teaching notes and suggestions.

Easy access to the **Student's App** on Navio.

An interactive gradebook with **Progress Tracker**, for teachers to track students' progress.

Organise student logins in **Manage Class**.

Create, edit and save tests on the **Test Generator**.

Resource Bank with course audios and videos, extra grammar and writing worksheets, tests and more.
